

STRATHONA NEWS

TO VOTE ON SUNDAY CARB.

In the next few weeks the people of Strathona will be asked by means of a plebiscite upon the question of running street cars. A vote will be taken on Sunday. The matter has come up before the Edmonton council and at next Tuesday's meeting of the Strathona council a communication will be sent from the Edmonton committee asking that the matter be submitted to the Strathona voters at the earliest possible moment. It is probable that the vote will be taken on June 7th, and if the plebiscite could come on in both cities at the same time it would be preferable.

Whether Strathona people will favor Sunday street car operation is not a question upon which there is considerable difference of opinion. A large number of people are opposed to the idea of the cars running on Sunday, claiming that such is entirely needless at the present time. While others think that the operation would give many people the opportunity of a much-needed outing to the outskirts of Edmonton or Strathona, which they would otherwise be unable to reach during the hot summer months.

Thus the opinion runs, and when the question comes to a vote there is bound to be a close election, with the chances slightly in favor of the extension of Sunday street car operation.

SWINDLED BY BRAZIL.
Daniel Mann Was Hacked in an Immigration House.

Spokane, Wash., May 18.—When Daniel Mann, a force laborer, employed by John Cronish on his Mount Prairie ranch, was released his four sons, ranging from 20 to 9 years of age, held him in security for funds borrowed several months ago to bring his wife and four daughters to Spokane. Prominent residents of Spokane county have interested themselves in the case and they have a settlement is not made by a steamship agent at Bremen that he be instituted to recover damages.

Briefly told, Mann's story is that he and his family of ten left the village of Kuraka, Russia, on Oct. 5, 1896, for Germany, intending to sail from Bremen to New York and travel thence by rail to eastern Washington and that when they reached the sailing point the steamship agent induced them through misrepresentation to go to Brazil that they were to be employed in an immigration house in the forest near P. M. M. where one of the children died, and finally he was expelled out of \$1,000, the savings of a lifetime of toil in the vast lands. They managed to reach Grouse, where he was forced to leave four sons on a guarantee to repay money advanced by Michael Loufili, who took pity on the family's plight.

We found thousands of men, women and children on the Amazon (interior) and rocky lands in Brazil bewailing their fate," Mann said. "Like ourselves, they were immigrants from Europe. We were warned them not 'sell any one short' and we are now in the country, and in fact, we were told that death by hanging was the penalty for saving anything about which we saw and the way we were treated by the officials in the immigration house. I was told that if anyone others had been executed for doing this immigration."

REGINA WAS EASY FOR WESTMINSTERS

Cost Host Had Hatched at Picnic With the Men From Saskatoon.

New Westminster, May 20.—The Regina aggregation of challenges for the Westminister football team, which was held today in a game, which, to the surprise of the Regina, was a case of playing easy all around the stadium. The score carried the Regina to a decisive victory, but only by a minute. They played with the Regina to a score of 15 to 0.

Right after the face of Pomeroy was dashed for the Regina goal. Warwick hit him over the head. Pomeroy went down and Warwick was equalized for 15 minutes. A surgeon was required to attend to Pomeroy's injuries. Pomeroy finally went to the dressing room, having a bad pain in the head, Gordon Spring replacing him.

Regina-Gordon, Clark; point, Howie; cover point, Laidlaw; first defence, West; second defence, Bha; third, Gordon; centre, Warwick; fourth home, Martin; second, Albi; first, Desmond; outside, McGregor; inside, McDougall.

New Westminster-Gordon, Gray; point, Galbraith; cover, T. Clifton; first defence, J. Clifford; second, C. Rennie; third, T. Rennie; centre, Pomeroy; third home, C. Spring; second, A. Turnbull; first, A. Turnbull; outside, L. Turnbull; inside, J. B. B.

Lack of being in on the Westminster defence on the part of the home of the Regina was the outstanding criticism of the visitors' game today when they went down to defeat the champions with a score of four to Westminster's six. Individually they played good soccer, but they did not make enough impression on the defense of the Royal Cityites. They failed when they should have gone alone in his residence in Alberta, but of western life in general. The professor happily accepted the gift and expressed appreciation of the pleasant trip that he had found during the past few months.

By the end of the first quarter the spectators were feeling that they had seen little of a thrilling contest and some of the more restless fans called in to the players with the suggestion that every body stop for five o'clock tea. The only brilliant play of the game was when the third goal was scored for Regina by Morgan. Albie he carried the ball in and dodging half a dozen Westminster players put it in the net. But after this the two sides against them in Westminster gathered up and had all the rest of the play.

Time and again the challenges appeared to lose advantage by running around aimlessly with the ball, without any concentrated attempt to beat the Westminster defence to pieces. Time and again, too, Clarke in goal saved the day for the Westminster. However, some found his vulnerable point was his weakness. The Westminster defence was not so good against him in that way. When Westminster added three to their tally in the first part of the second quarter the home fans forgot any anxiety they possessed and asked the visitors more than ever for their sentiments.

When Westminster added three to their tally in the first part of the second quarter the home fans forgot any anxiety they possessed and asked the visitors more than ever for their sentiments.

Just before noon today the Westminster club wired a protest to P. B. B. on the part of the cup trustees, against the competition of the Regina on the ground that many members of the team were not residents of Regina, and therefore, not qualified to play. The protest was also mailed to B. B.

Westminster won the toss and elected to play down field, for there is a slight grade at the park. Pomeroy was the ball and Len Turnbull scored.

ceded. A rush on the Regina net followed, and then the centermen carried the play to the Westminster end. The challenges circled around and around for a minute or two, but could not get a defender out from their flags. A poor pass put the ball to the home team and immediately the play went to the other end.

The Westminster methods were in direct contrast to those of Regina. They held on in the net and Howard had to intercept a shot. For a brief time the Royal City boys were being defended from their goal. Then after a shot from Alex Turnbull went into the net. Regina scored and then down the field, but only by a minute. BRITISH HOUSE ADOPTS PROPOSALS

Mr. Balfour Fords Democracy and Robbery Resolutions Adopted by the Poor Millionaire.

London, May 21.—The House of Commons passed the new death duty by a vote of 206 to 122, the settlement duties by 200 to 127, the automobile sales tax and the reduction of the income tax by 20 to 50.

Mr. Balfour Fords again strongly denounced the death duties. "Let us be careful," he said, "we do not associate democracy with robbery, an association which never has been true in any civilized modern state, and which I hope never will be true in this country, but it seems nearer after this budget than ever before."

Under the new budget which is the creation of Lloyd George, chancellor of the exchequer, the poor rich man has a hard lot. He must pay over 18 per cent income tax, \$250 a year for each of his big automobiles, double the tax on all stock and share transactions a new tax on all land, and 20 per cent of all his unearned income in land value.

When he dies, if he is a millionaire the state will take a maximum of 75 per cent of his entire property. This is divided into three taxes, per cent death duties, 10 per cent legacy duty on all bequests except to near relatives, and a general tax of 2 per cent on all estates passing to others. There are numerous other taxes annually where estimates pass to private fees in the same way, through the death of an heir of the first owner. The taxation of the new money would contribute to the state as high as 54 per cent of such property. If the total amounted to a million of more the holder would lose more than half of his property. The new taxes would be even greater than these figures would indicate for the government would complete immediate cash payment by the great properties. The country as they do not always represent cash but all manner of investments, and are required to make immediate forced sales of sufficient property to satisfy the government demands. This is especially so when the real estate involves heavy sacrifice.

A BUSY MAN

Levi Munroe Who Undertook to Forward Love Letters Moving a Very Busy Time.

Spokane, Wash., May 20.—There is no busier man in the Pacific Northwest today than Levi Grant Munroe, secretary of the Spokane chamber of commerce, who, at the instance of Rev. D. D. Vaughn, pastor of the Episcopal church, has undertaken to forward letters from inmates in the island empire to the benevolent girls and women connected with Dr. Vaughn's congregation. When it was announced that there are fully 2,000 letters in the island empire in the hands of the postal authorities, it was believed that the figure was being crowded, but Mr. Munroe is ready to testify under oath there are at least 20,000 in the northwest, and he added, there are more than five times that number of eligible women connected with the Missouri river. This estimate is based upon the checks of the letters he has come to this desk during the last five days. They are from New England, the south, middle west and east, with a sprinkling from the various provinces of Canada. The impression prevails at the chamber of commerce quarters that the Chicago minister has started collecting letters.

Still Seeking Diver.

Reno, Nev., May 19.—A report that cannot be confirmed is being circulated here that Virginia Harrell Sothern, the wife of E. H. Sothern, has taken up her residence in this city for the purpose of getting the devoted divorce decrees refused her three weeks ago by Judge Pike. According to the rumor, Mrs. Sothern has rented a house in this city and after residing here for three days will again resume her theatrical obligations. It is given as her intention that she will return here a few days before the expiration of her six months and in her suit for divorce filed at the end of the month declare herself to have been a housewife for the purpose of the state for the prescribed period.

BLACK HAND AGAIN.

Friend of Murdered Police Inspector Felle A Victim.

New York, May 19.—Marked but dignified, the police believe because he had been a close friend of Insp. Felle, the New York police department, who was assassinated in Palermo, thought it was his duty to find out who was connected with the crime. He was trying to enter the apartment in East 75th street, he dropped dead on the threshold as a bullet fired over the balcony in the floor above crashed into his body. By the time the police arrived the assassin had escaped. The police are now looking for a man named Felle, who was the friend of the deceased.

Ottawa, May 20.—Messrs. Bapst, Melnick and Pannier, the commissioners engaged by the government to prepare plans for the new Quebec bridge, after several months, have now advanced the work that the government will be in possession of a complete plan at no distant date. The present plan, which cost \$2,000,000, will be utilized for the new bridge, which will have a span of 1,000 feet. The bridge will be built of steel, and will be the longest bridge in the world. It will be built on the site of the old bridge, and will be the longest bridge in the world.

ANGLO-CLAN COLLEGE

Will Be Started in Saskatoon—Site Wanted Next to University.

Saskatoon, May 20.—Bishop Neumann, head of the Anglican church in this diocese, accompanied by Archdeacon Lloyd, of Prince Albert, has been in the city for the past few days looking over the university site and it is understood that a request had been made to the governors for a certain plot of land. At the same time an additional block of land will be purchased adjoining which will give the church of England a large school campus in close touch with the university. This land will be used for the erection of a preparatory school institution of the Anglican denomination.

This is the first denomination to make application for land for university purposes from government, but it is expected a similar request will be received from the Lutheran church in a day or so, as both bodies intend to build their own theological institutions close to the provincial university.

Galician Woman's Sad Plight.

Toronto, May 19.—A Galician woman who recently arrived from Europe with her two children and her husband, the clothes of both being in shreds, reached the city this morning from Quebec. The woman expected to meet her husband at Quebec but it turned out that the man was in British Columbia. She and her child are being looked after by Rev. Mr. MacQuinn, who is in the meantime trying to locate the husband and father.

SOCIALISTS VS. POLICE.

Street Meetings Held in Vancouver Despite Police.

Vancouver, May 19.—A meeting was held here last night in defiance of the police and several hundred people who gathered on persistent orders, refused to disperse before a squad of police that showed it was almost impossible to attempt a forcible means to secure order.

King's Have Their Quorrels.

Edmonton, May 19.—Reports that King Edward will not visit Manitoba this year cause serious misgivings here and it is feared will affect the political relations of the province and England. It is an old secret that the King and the Emperor of Austria had a serious disagreement at Delhi last August on the subject of disarmament. Edward was unwilling the Austrian ruler to exert his influence upon the Kaiser with a view to inducing Germany to enter upon an agreement with England for a mutual reduction of naval expenditures. As, however, the Kaiser only the previous day had met the King and had refused to entertain the suggestion, the Emperor felt himself bound to tell the king's man, Baron Aehrenthal's Balkan policy aroused much indignation in Britain and the press of both countries indulged in the most scathing criticism. A serious English sentiment is still perceptible against the king's visit to the continent.

Will Advance Wages.

Pittsburg, Pa., May 18.—The wages of \$2.000 employees of the Independent Iron and Steel works of the city of Pittsburg district will on June 1 be restored to the old scale, and further that that they will be expected to work at least full time for the ensuing six months. A cut of ten per cent took place on April 1 last. An accumulation of orders for iron and steel products is the cause given for the decision to restore the cut in wages. The Republic Iron and Steel company has not been sure but have said that the independent foundry will be the first to spread the news that the cut in wages would be restored. The motion was given some time Saturday night or Sunday and when the men went to work this morning they saw the notice and there was great rejoicing. At the Pittsburg office of the Republic Iron and Steel company, the decision to restore wages on June 1 was confirmed but no definite word was given out. The Sherrill Furnace company and the W. P. Snyder company, which control practically the independent pig iron end of the trade and which have announced they will raise the ten per cent cut some weeks ago also confirmed the report that wages would be restored to the old time basis on June 1. The Jones and Laughlin works with about 10,000 men will also place wages back on the old basis two weeks from tonight.

C.P.R. Men May Go Out.

Boston, Mass., May 19.—The advertisement had some matter relating to the employees of the Canadian Pacific Railroad would be brought up at today's session of the Order of Railway Conductors' annual grand division, aroused keen interest among the delegates. The subject was one about which the greatest secrecy has been maintained, but it was forecast that the convention's action today might result in precipitating a strike of Canadian Pacific employees.

SWISS EMBROIDERY SALE.

This item will undoubtedly be the chief attraction on Saturday. Here is the story in a nutshell: Our Buyer while in Switzerland had the good fortune to run across a manufacturer who had a vast accumulation of mill ends on hand. Of course the whole stock was not shipped to Edmonton; our other stores in various parts of Canada had to have their share too, but still a very large quantity, and some of the choicest has found its way into this branch. Such exquisitely fine embroidery is rarely if ever seen outside of Europe, but now we can show you some and at prices within the reach of everyone. He increased this to a mile and a half by the 12th mile and gained a couple of hundred yards more the next two miles. By the 15th mile Strub had spent his main force, and the newcomer started to gain. Strub, however, held out gamely, and the race was short but regular, that he the sea-
